

ICE AND SNOW DEE-ICER

Article: L903, TG Dee Icer, 1x25 kg.

PROVIDES A FAST AND LONG-TERM EFFECT - UP TO 48 HOURS.

SELECTED TO EXPOSED PLACES - DOES NOT FLY AWAY.

WORKS BELOW MINUS 35 DEGREES CELCIUS.

LEAVES NO WHITE SPOTS ON THE FLOOR, AND IS HARMLESS TO PETS.

DOES NOT DAMAGE CONCRETE, METAL, PLANTS ETC.

ANVENDELSE

TG DEE-ICER is a snow and ice detergent, that is more effective than other known solutions.

TG DEE-ICER is the environmentally friendly alternative, or supplement, for road salt and others.

TG DEE-ICER works faster because of a heat development, and at lower temperatures, than others.

TG DEE-ICER is synthetically manufactured, and virtually free from side effects, so it can be used with advantage on concrete surfaces (trusses, stairs), metal (loading ramps and similar).

BRUGSANVISNING

TG DEE ICER is used either preventively before a snowfall / ice with a "light hand" on the area.

TG DEE ICER can also be dissolved in water: 1 kg to 5 liters of water, and then sprayed onto surfaces like:

Cellar shafts, halls, loading ramps, difficult surfaces, and similar.

The solution will appear deafening, and be heatgenerating.

TG DEE ICER can be mixed with gravel / sand on larger areas.
